

MEMORANDUM

TO: Solid Waste File

DATE: October 9, 1969

FROM: Frederic L. Stiegler, Jr. *FLS*

RE: Visits to Tybouts Corner Landfill and Newark Landfill.

Mr. Lewis Calloway, Robert King and Mr. Frederic L. Stiegler, Jr., visited the New Castle County Sanitary Landfill on October 10, 1969. The purpose of the visit was to provide assistance to the ~~operator~~ ^{operator} of the Sussex County Landfill # 1, Bridgeville. Mr. Lewis Calloway is the operator of the facility. The Tybout's Corner Landfill has a new supervisor, Mr. Thomas White who has held the position for two weeks. It would appear that the facility is being operated fairly well in view of the newness of the operator, the original acreage approved (11 acres for the part one of the facility is rapidly filling) at the present time. Mr. Calloway was quite impressed with the operation at Tybout's Corner and felt that the operation was very well run. This size operation is of course much larger than the planned operation at Sussex County Site # 1. However, the same basic method of operation will prevail. Mr. Calloway stated that he had picked up several helpful hints that could be applied to his operation.

A stop was also made at the Newark Landfill located on the University of Delaware Property. The facility handles the solid waste from the city of Newark and the University of Delaware. Six completed trenches have been completed and the area looks beautiful. The completed area has been planted in a cover crop and looks very attractive. Mr. Calloway was quite impressed with the overall operation as well as the appearance of the finished landfill. He expressed a desire that his landfill be operated in a similar manner and the finished area look similar to the Newark facilities.

It was the impression of both Mr. King and myself that Mr. Calloway was glad to have had the opportunity to visit both facilities. He was able to observe and learn some methods that could be applied to his facility. The trip was very worthwhile as far as time spent and knowledge learned.
